Reference Documents for the General Meeting of Shareholders

Proposals and References

Proposal No. 1: Appropriation of Surplus

It is proposed that, in light of distribution of profits to shareholders and enhancement of internal reserves required to maintain a healthy financial standing that can respond to changes in the future business environment and for growth investment, year-end dividends for the 75th fiscal term be distributed as follows:

- (1) Matters concerning the distribution of dividend property to shareholders and its aggregate amount
12 yen per share of common stock of the Company, or 2,833,721,808 yen in an aggregate amount
- (2) Date on which the dividend of surplus becomes effective
June 29, 2016

Proposal No. 2: Reverse Share Split

1. Reasons the reverse share split is required

The Japanese stock exchanges collectively announced the “Action Plan for Consolidating Trading Units,” which aims to standardize the trading units for common stock issued by all listed domestic corporations at 100 shares, with the plan’s transition period being set to expire on October 1, 2018.

As a corporation listed on the Tokyo Stock Exchange, the Company respects the objectives of the plan and has thus decided to change the number of shares per share unit, or trading unit, for its stock, from 1,000 shares to 100 shares. In addition, the Company will execute a reverse share split, with an eye to realizing the level of investment unit (50,000 yen or more and less than 500,000 yen) that is considered desirable by the stock exchange.

2. Ratio of reverse share split

Every five shares of the Company’s common stock will be consolidated into one share.

In cases where fractional shares of less than one share are created through the reverse share split, all shares will be disposed of in accordance with the Japanese Company Law and the Company will reimburse the proceeds therefrom to the former holders of such fractional shares in amounts proportional to the former holdings of said shareholders.

3. Effective date of reverse share split

October 1, 2016

4. Total number of authorized shares as of the effective date

180,000,000 shares

5. Others

The reverse share split concerning this Proposal is contingent upon the approval and resolution of Proposal No. 3 “Partial Amendments to the Articles of Incorporation.”

Concerning other matters required as part of procedures, the Company requests that these be entrusted to the Board of Directors.

Proposal No. 3: Partial Amendments to the Articles of Incorporation

1. Reasons for the proposal

- (1) To decrease the total number of authorized shares by the same ratio used for the reverse share split, the Company will change Article 6 of the current Articles of Incorporation while amending Article 8 to change the number of shares per share unit from 1,000 to 100. These changes will be executed based on the presumption of approval of Proposal No. 2 “Reverse Share Split.”
- (2) In line with the Law for Partial Amendment to the Company Law (Act No. 90 of 2014), which came into effect on May 1, 2015, the parameters defining Directors and Corporate Auditors eligible to sign an agreement limiting their personal liability has been revised. In response, the Company will amend the relevant provision of its Articles of Incorporation.
In addition, the Company has obtained approval from each Corporate Auditor for the proposed change in Article 29 of the Articles of Incorporation.
- (3) The changes described in (1) above will entail the addition of a supplemental provision to the Articles of Incorporation stating that the new provisions will come into effect on October 1, 2016, in conjunction with the effective date of Proposal No.2 “Reverse Share Split.” Said supplemental provision will be deleted when the changes described in (1) come into force.
