Corporate governance at SCREEN Holdings Co., Ltd. (hereinafter “SCREEN Holdings” or the “Company”) and its consolidated subsidiaries (collectively, the Group or the SCREEN Group) is executed in accordance with the following:

I. Basic Concepts regarding Corporate Governance, Capital Structure, Corporate Profile, and Other Fundamentals

1. Basic Concepts **Update**

By striving to improve corporate governance in pursuit of enhanced transparency, soundness, and efficiency in business management, the SCREEN Group aims to ensure that shareholders and all other stakeholders benefit in line with its Corporate Philosophy that clarifies the corporate purpose. The Group recognizes that effective corporate governance is essential to the achievement of this goal, thus it has strengthened its capabilities to govern through the establishment of its “Management Grand Design,” which is SCREEN’s future ten-year vision for enhancing SCREEN Value; “SCREEN Group CSR Charter / Code of Conduct,” which describes the principles of action and standards that all Group employees should comply with; and the “SCREEN Group Code of Management,” which regulates the controlling policies and systems of Group companies as well as other regulations with which all executives and employees should comply.

Reasoning for Noncompliance with the Principles of the Corporate Governance Code

N/A

The Company has complied with all principles of the Corporate Governance Code which was published on June 11, 2021.

Disclosure Based on the Principles of the Corporate Governance Code **Update**

Principle 1.4: Cross-Shareholdings

In order for the Company to enjoy sustainable corporate development, it is essential to maintain partnerships with a broad range of external corporations. Because of this, the Company may retain cross-shareholdings as long as said shareholdings are deemed strategically necessary in light of its pursuit of medium- to long-term improvements in corporate value. To assess the necessity of such shareholdings, the Board of Directors engages in annual reviews aimed at comprehensively examining the status of transactions with investees, the impact of shareholdings on the Company’s financial position, the quantitative benefits of such shareholdings vis-à-vis capital cost, and whether the purposes of shareholdings have been met. If examination results reveal that certain shareholdings are no longer necessary, the Company negotiates with the investees to ensure that

the shareholdings in question can be smoothly divested. As of the end of the most recent fiscal year, the Company had divested shares of 36 investees, totaling ¥7.7 billion, over the eight years since the introduction of Japan's Corporate Governance Code.

In addition, the Company exercises voting rights associated with its shareholdings in a way that respects the management policies of its investees while making voting judgments from the perspective of enhancing its own corporate value over the medium to long term. It should be noted that if an investee is found to be involved in major misconduct or has submitted a proposal that is deemed potentially detrimental to shareholder value, the Company will take a particularly cautious approach when making its voting judgment, engaging in dialogue with the investee prior to voting as necessary.

Principle 1.7: Related Party Transactions

When a director intends to engage in a transaction deemed to be competing with any of the Company's businesses or that may result in a conflict of interest ("Competition and Conflicting Interest Transactions" as defined by law), the director is obliged to obtain the approval of the Board of Directors in accordance with the Company's Rules of the Board of Directors. Moreover, the Board will review reports on the content and value of such transactions on a quarterly basis and grant approval on those transactions that are judged legitimate. In addition, no current shareholder of SCREEN Holdings possesses a voting rights ratio of 10% or greater. However, if a major shareholder were to surpass this ownership threshold, the Company would ensure that any possible transaction with said shareholder be properly examined by the Board of Directors based on the aforementioned procedure before being greenlit.

Supplementary Principle 2.4.1: Ensuring Company Diversity in Core Personnel Hiring

(i) Ensuring diversity

Based on the philosophy of supporting the activities of diverse human resources set forth in the CSR Charter, which is the Group's Code of Conduct, the Company actively recruits human resources with diverse attributes including women, non-Japanese people, and mid-career hires, as well as trains and promotes individuals to management positions based on their abilities, qualities, and aptitudes regardless of their attributes. In addition, by continuously exchanging human resources between overseas Group companies and the Company and its business operating and functional support companies, efforts are being made to develop human resources with broad perspectives.

In addition, the Company is striving to create a comfortable working environment that allows all employees to demonstrate their abilities regardless of gender despite changes resulting from various life stages. The Company will continue to emphasize the diversity of its human resources in order to improve the working environment and to ensure strong growth.

Promotion of Women to Management Positions

At the Company and its business operating and functional support companies, women are taking on a wide range of positions, including as general managers, section managers, and subsidiary executives. In order to encourage their growth, the Company offers career development for promotion to management positions according to their qualifications and aspirations, such as overseas assignments, dispatch to overseas MBA programs, and appointment as company-wide project leaders.

By the fiscal year ending March 31, 2031, the Company aims to more than double the percentage of women in management positions compared to FY2019 and increase the percentage amongst all employees to at least 15%, or to a level that is appropriate for the changing business conditions. The Company is actively recruiting and training women, and is working to create an environment that encourages them to play an active role, thereby increasing the number of women in core positions in decision making for the Group.

The number of women hired is on the rise, and the Company would like to expand the percentage of new graduates hired from around 20% to even more in the future, taking into account the business situation.

	Current	Fiscal year ending March 31, 2031
Ratio of women in management positions	3%	Approximately 6%
Percentage of women among all employees	10%	15% or higher

Promotion of Non-Japanese to Management Positions

Within the Group, there are 54 international employees in the Company and its business operating and functional support companies, and four of them are active in management positions. In overseas subsidiaries, about half of the 42 full-time executive positions are held by locally hired foreign nationals, and international employees account for about 40% of the Group as a whole. In addition, the Company continues to exchange human resources with overseas Group companies by appointing them to general manager or higher positions in the Company and its business operating and functional support companies.

Promotion of Mid-Career Hires to Management Positions

The Group actively recruits mid-career workers in line with changes in its core businesses and other factors, and the number of such workers accounts for one third of the total number of employees in domestic Group companies. In management positions, mid-career hires account for one-third of the total, and appointments are made regardless of hiring attributes.

(ii) Human resource development policies, internal environment development, and other conditions to ensure diversity

In order for each individual to maximize his or her abilities and enhance the performance of the Group, it is crucial to provide opportunities for growth, a supportive environment, and promote diversification, regardless of an individual's attributes. The Company will continue to implement hiring from diverse demographics, and while taking into account business conditions, strive to increase the number of diverse employees, including mid-career hires, women, and non-Japanese, to more than 50% by the fiscal year ending March 31, 2031.

Principle 2.6: Roles of Corporate Pension Funds as Asset Owners

The Company wishes to provide its employees with opportunities for stable asset formation via the administration of corporate pension funds while staying vigilant to the impact of fund administration performance on its consolidated financial position. Accordingly, the Company has put in place the Corporate Pension Fund Administration Committee consisting of individuals equipped with experience and competencies in this field. In this way, the Company monitors its asset managers and ensures that its pension funds are managed appropriately.

Principle 3.1: Full Disclosure

As presented earlier in "1. Basic Concepts."

(ii) Basic views and guidelines on corporate governance based on each of the principles of Japan's Corporate Governance Code

(iii) Board policies and procedures regarding the determination of remuneration for senior management and directors

The remuneration policy for directors is determined by a resolution of the Board of Directors held on February 26, 2021. This is in response to the proposal of the Nomination and Compensation Advisory Committee composed of outside directors (the majority) and the Chairman of the Board of Directors.

Compensation as an incentive for directors is determined on the basis of individual roles and responsibilities in order to live up to the stakeholders' expectations and enhance medium- to long-term corporate value. Specifically, compensation for directors and corporate officers now consists of three elements: (a) basic remuneration for fixed cash payment, (b) a short-term performance-linked cash bonus, and (c) share compensation linked with the short- and medium- to long-term performance, and corporate value (shareholders' value). Outside directors' compensation does not include performance-linked share compensation.

Specifically, the basic policy of the Board of Directors is to build an optimal business portfolio by visualizing the current status of each business in an integrated manner using growth rate and ROIC as indicators, analyzing issues and periodically confirming the progress of necessary measures.

[Actions to Implement Cost of Capital and Stock Value-Conscious Management]

The Company ascertains the cost of capital for the entire Group using the weighted average cost of capital (WACC).

In addition, in the medium-term management plan "Value Up 2023" (Running from FY2021/03 to FY2024/03), we have introduced ROIC as an indicator to measure profitability and efficiency and set ROIC target which exceeds the WACC in order to promote the adoption of "ROIC management". Incentives

Incentive policies for directors

Introduction of a performance-based compensation system, etc.

Supplementary Explanation

The Company abolished its retirement benefits for senior management and directors in 2005 and adopted

stock allowances aimed at encouraging recipients to stay conscious of SCREEN’s medium- to long-term corporate performance and share prices. Moreover, the 76th Ordinary General Meeting of Shareholders held on June 27, 2017 approved the introduction of performance-linked share compensation, which then replaced stock allowances and has been in place since August 2017.

Accordingly, compensation for directors now consists of three elements: (a) basic remuneration for fixed cash payment, (b) a short-term performance-linked cash bonus, and (c) share compensation linked with the short- and medium to long-term performance, and corporate value (shareholder’s value). This compensation scheme better motivates recipients to improve business performance and to increase the value of the Company over the medium to long term (shareholder’s value). The well-balanced scheme allows to develop management personnel, resulting in the sustainable growth of the Company. (Outside directors’ compensation does not include performance-linked share compensation.)

The policy on determining the ratio of total remuneration to each director is as follows.

1. Basic remuneration is paid relative to the responsibility of each director in terms of the responsibilities, including the size of the business, that they are engaged in.
2. Performance-linked compensation is less than approximately half of fixed remuneration
3. Performance-linked share compensation is designed to grant approximately 40%, at most, of basic remuneration described under the Supplementary Explanation of Other Matters Related to Independent Directors and Independent Corporate Auditors. Its monetary value could change with fluctuations in share value.

Performance measurement aims at reinforcement of management infrastructure, including operating income ratio, and ROE. In addition, measurements in terms of environment and safety is used to enable the social value enhancement. The amount of performance-linked bonus is determined on scoring achievement of each indicator.

SCREEN Holdings takes the form of a company with a Board of Corporate Auditors. At present, it has a Board of Directors comprising eight directors (including four outside directors) and a Board of Corporate Auditors comprising four corporate auditors (including two outside corporate auditors) as well as external accounting auditors. The Group has adopted a holding company structure split into four main business areas,¹ each under a separate business operating company, to enable agile and bold business execution. The holding company determines the basic policies and strategies for Group management as well as the optimal allocation of management resources. In addition, it has management oversight over the business execution of each Group company, ensuring the functional separation of business execution and oversight.

The Board determines basic policies and strategies for Group management and important matters pertaining to business execution and exercises supervision over business execution, holding regular monthly meetings and additional meetings as necessary. It selects more than one-third of outside directors (there are currently four) in the Board of Directors with an eye to the functional enhancement of management oversight and the maintenance of management objectivity. Outside directors are selected in accordance with the “Criteria for Independence of Outside Directors and Outside Corporate Auditors” formulated with reference to standards prescribed by the Tokyo Stock Exchange. The term of office of director is set at one year as the Company aims to clarify responsibilities of directors in addition to securing a management structure capable of quickly adapting to changes in the operating environment.

The Company has voluntarily chosen to establish the Nomination and Compensation Advisory Committee composed of outside directors (the majority) and the Chairman of the Board of Directors.

Director and corporate auditor candidates are determined by the Board of Directors after seeking advice from the Nominating and Compensation Advisory Committee. Compensation for each director is now determined by the representative directors under authorization from the Board of Directors after seeking the advice of the Committee. The Nominating and Compensation Advisory Committee is thus helping the Board make fair and objective decisions with regard to these matters.

The Company also maintains the Management Committee. This body comprises the full-time directors, presidents of business operating companies² and functional support companies³ and officers whom the Chairman of the Committee appoints. It meets more than once a month to deliberate matters related to management and to facilitate the decision-making of the Board of Directors and representative directors.

In general, the Company’s Board of Corporate Auditors holds periodic meetings once a month, and if necessary, special meetings are held. In line with the audit policies and plans formulated by the Board of Corporate Auditors, it is responsible for monitoring and overseeing the legality of the official acts of the directors. This is done through daily audits to ensure propriety. The Company places the Corporate Auditors Department, which maintains a dedicated staff, to assist the Corporate Auditors.
