

COVID-19 infection case confirmed at a European Subsidiary (On September 30, local time)

October 02, 2020

Doc. No.: INFO201002E

On September 30, local time, one employee of SCREEN SPE Israel Ltd. (Israel), affiliated with European subsidiary, was confirmed infected with COVID-19.

In response, we have identified close contacts and completed cleaning and disinfection based on the employee's behavior history under the guidance of local authorities.

On January 24, the Company established a Disaster Response Headquarters, headed by Toshio Hiroe, President and CEO, and we have been working to gather information, check on our employees' health and take preventive measures.

The safety of our clients and employees as well as prevention of infections inside and outside the company are of utmost importance to us. We will work appropriately in cooperation with authorities in Japan and other countries. We ask all related parties for their kind understanding and cooperation in these matters.
