SCREEN Semiconductor Solutions Receives Best Supplier Award from TowerJazz

Kyoto, Japan – October 3, 2017 – SCREEN Semiconductor Solutions Co., Ltd. (SCREEN SPE) has received a 2017 Supplier Award from TowerJazz, the global specialty foundry leader. The award recognizes SCREEN SPE's excellent support of TowerJazz's global business activities, providing benchmarking tool services and parts support. According to Rafi Mor, TowerJazz's COO, the Supplier Award underlines the dedicated commitment of SCREEN SPE to support TowerJazz fab operations in all geographic sites and help TowerJazz to achieve their aggressive goals for technical execution and cost performance.

Rafi Mor also pointed out: "SCREEN SPE's expertise and responsiveness to prevent and solve all kinds of technical issues is outstanding and TowerJazz is very pleased to continue and extend the excellent collaboration with SCREEN SPE." Tadahiro Suhara President of SCREEN Semiconductor Solutions emphasized with sincere appreciation SCREEN SPE's commitment to strongly support TowerJazz using its latest generation 200 mm equipment and advanced infrastructure for spare parts supply and service.

SCREEN SPE is continuously strengthening its relationships with customers as a leading manufacturer of semiconductor equipment and developing solutions to meet customer requirements around the world.

Tower Semiconductor Ltd.

Tower Semiconductor Ltd. (NASDAQ: TSEM, TASE: TSEM) and its subsidiaries operate collectively under the brand name TowerJazz, the global specialty foundry leader. TowerJazz manufactures next-generation integrated circuits (ICs) in growing markets such as consumer, industrial, automotive, medical and aerospace and defense. TowerJazz's advanced technology is comprised of a broad range of customizable process platforms such as SiGe, BiCMOS, mixed-signal/CMOS, RF CMOS, CMOS image sensor, integrated power management (BCD and 700 V) and MEMS.

TowerJazz also provides world-class design enablement for a quick and accurate design cycle as well as transfer optimization and development process services (TOPS) to integrated device manufacturers and fabless companies that need to expand capacity. To provide multi-fab sourcing and extended capacity for its customers, TowerJazz operates two manufacturing facilities in Israel (150 mm and 200 mm), two in the USA (200 mm) and three in Japan (two 200 mm and one 300 mm).
