SCREEN Makes Four Hiragino Fonts Available via Adobe Fonts Web Service

Kyoto, Japan – April 10, 2023 – SCREEN Graphic Solutions Co., Ltd. (SCREEN GA) has signed a partnership agreement with Adobe Inc. for the provision of font distribution services. From April 2023, Adobe will begin offering four Hiragino fonts through its subscription-based font service, Adobe Fonts (fonts.adobe.com).

The fonts available will be Hiragino Kaku Gothic ProN W3/W6 and Hiragino Mincho ProN W3/W6, the most popular types from the Hiragino family. Hiragino fonts are known for providing elegant, highly legible text for use in all types of media, including advertisements, videos, Websites and books.

Designers and creative professionals worldwide will now be able to combine Hiragino fonts with a wide variety of others offered by top font makers. This improved access via Adobe Fonts will support the creation of more eye-catching designs with greater expressiveness.

SCREEN GA intends to use this new availability as an opportunity to accelerate both its domestic and international distribution of Hiragino fonts. The company also plans to improve its service to meet growing global user demand, taking advantage of its long-term experience in developing high-quality typefaces.

Available Fonts

- Hiragino Kaku Gothic ProN W3
- Hiragino Kaku Gothic ProN W6
- Hiragino Mincho ProN W3
- Hiragino Mincho ProN W6

Comments by Yuki Yoshi Tanaka, President of SCREEN Graphic Solutions Co., Ltd.

Adobe and SCREEN GA have been important business partners in the graphic arts field for many years and we are very pleased to announce our distribution agreement. I believe that having Hiragino fonts available via Adobe Fonts will increase the opportunity for many designers and creative professionals to use them and produce more diverse and expressive designs.

Our company will continue to provide high-quality fonts that support the development of the creative industry. We also hope to deepen our cooperative relationship with Adobe so we can provide ever better services.

Comments by Taro Yamamoto of Adobe Japan

Hiragino fonts have been widely used for professional printed publications, for office documents, in computer operating systems, and on mobile devices. Every typeface in the family shares a clean and modern appearance, with unique characteristics well founded in traditional typeface design.

Well-proportioned, bright and elegant design makes the fonts easy to use. Adobe Fonts will support Hiragino Kaku Gothic W3 and W6, and Hiragino Mincho W3 and W6. We expect the fonts to greatly help document interchange between different OS environments.

Note: Hiragino is a registered trademark and/or trademark of SCREEN Holdings Co., Ltd. in Japan and/or certain other countries.
